I want to express my appreciation to secretaries who have adapted to the transition to virtual branch meetings. Despite ongoing uncertainty, branch activities are picking up though the practical advantages of virtual meetings will probably mean that branch activity will remain mixture of virtual and face-face meeting. Members are invited and encouraged to engage with branches in their region or, where possible, across Great Britain.

Branches are reminded that the PESGB encourages at least one seminar per year that is of particular relevance to teachers to be included in branch programmes. Branches have been asked to keep in mind the sustainability policy when planning events.
